WELCOME TO THE CTFA COSMETIC COMPENDIUM UPDATE 2025

Presented by: Nadia Rashid

(Technical & Regulatory Affairs Manager)

Conduct Rules

Welcome and thank you for joining us for today's hybrid training session. Please take note of the following housekeeping rules to ensure a smooth and respectful experience for all attendees:

Microphones: Kindly keep your microphone muted unless you are speaking, if you are joining virtually.

Cameras: If you are joining virtually, please keep your video turned off unless you are speaking. You are welcome to switch on your camera when asking a question or contributing to the discussion.

Questions & Participation: Questions will be addressed at the Q&A session at the end of the training.
Virtual attendees can use the chat function or the 'raise-hand' icon to participate.
In-person attendees will be given the opportunity to raise questions verbally.
If using the 'raise-hand' icon, kindly lower it once your question has been addressed.

Recording: Recording of the session by attendees is not permitted. Please note that the session will be recorded for internal purposes only and will not be shared.
A PDF copy of the presentation will be distributed after the session.

Technical Support: For virtual attendees, if you experience any technical issues, please contact Samantha at **samantha@ctfa.co.za**.

Post-Training Support: Should you require any additional support or notes after the session, feel free to contact Samantha via email.

“Allergens” Regulation Overview

- Cosmetic regulation requires labelling of these known allergens on the end product pack if present.
- It is a change in **labelling** requirements.
- The fragrance/product **remains the same**.
- **No requirement** to remove these substances OR to consider reformulating out of these ingredients.

ctfa
COSMETIC TOILETRY & FRAGRANCE ASSOCIATION OF SOUTH AFRICA

“Allergens” Regulation - Notes

- The Labelling Threshold remains the same: *0.001 % in leave-on products; 0.01 % in rinse-off products*
- To be declared whether added to a perfume mixture/Natural Complex Substance/present in other raw materials/as cosmetic ingredient.
- To be mentioned in addition to the terms parfum or aroma.
- Consider their concentration to define the position in the ingredient list; OR Allergens names at the end.
- Take note of total contribution of each allergen from all sources.
- Pay attention to group names if listed.
